Our common stock is traded on the Nasdaq Capital Market under the symbol “MARK.” The last reported sales price of our common stock on the Nasdaq Capital Market on October 28, 2021 was \$1.85 per share.

We are a holding company incorporated in Delaware and not a Chinese operating company. As a holding company, we conduct a significant part of our operations through our subsidiaries and through contractual arrangements with variable interest entities (“VIEs”) based in China. To address challenges resulting from laws, policies and practices that may disfavor foreign-owned entities that operate within industries deemed sensitive by the Chinese government, we use the VIE structure to replicate foreign investment in Chinese-based companies. We own 100% of the equity of a wholly foreign owned enterprise (“WFOE”), which has entered into contractual arrangements with the VIEs, which are owned by members of our management team in China and/or by third parties. For a description of the VIE structure and our contractual arrangements with the VIEs, see “Prospectus Summary—Corporate Structure.” As a result of our use of the VIE structure, you may never directly hold equity interests in any of the VIEs.

Because we do not directly hold equity interests in the VIEs, we are subject to risks and uncertainties of the interpretations and applications of Chinese laws and regulations, including but not limited to, the validity and enforcement of the contractual arrangements among the WFOE, the VIEs and the shareholders of the VIEs. We are also subject to the risks and uncertainties about any future actions of the Chinese government in this regard that could disallow the VIE structure, which would likely result in a material change in our operations, and the value of our common stock may depreciate significantly or become worthless. See “Risk Factors—Risks Relating to our Corporate Structure” and “Risk Factors—Risks Relating to Doing Business in China.”

We are subject to certain legal and operational risks associated with having a significant portion of our operations in China. Chinese laws and regulations governing our current business operations are sometimes vague and uncertain, and as a result these risks could result in a material change in our operations, significant depreciation of the value of our common stock, or a complete hindrance of our ability to offer or continue to offer our securities to investors. Recently, the Chinese government adopted a series of regulatory actions and issued statements to regulate business operations in China, including those related to the use of variable interest entities, data security and anti-monopoly concerns. As of the date of this prospectus, our Company and subsidiaries and the VIEs have not been involved in any investigations on cybersecurity review initiated by any Chinese regulatory authority, nor has any of them received any inquiry, notice or sanction. As of the date of this prospectus, no relevant laws or regulations in China explicitly require us to seek approval from the China Securities Regulatory Commission (the “CSRC”) for any securities listings. As of the date of this prospectus, our Company and subsidiaries and the VIEs have not received any inquiry, notice, warning or sanctions from the CSRC or any other Chinese governmental authorities relating to securities listings. However, since these statements and regulatory actions are newly published, official guidance and related implementation rules have not been issued. It is highly uncertain what potential impact such modified or new laws and regulations will have on our ability to conduct our business, accept investments or list or maintain a listing on a U.S. or foreign exchange. See “Risk Factors—Risks Relating to Doing Business in China.”

As of the date of this prospectus, none of our subsidiaries or any of the consolidated VIEs have made any dividends or distributions to our Company. Under Delaware law, a Delaware corporation’s ability to pay cash dividends on its capital stock requires the corporation to have either net profits or positive net assets (total assets less total liabilities) over its capital. If we determine to pay dividends on any of our common stock in the future, as a holding company, we will rely on payments made from the VIEs to our WFOE in accordance with the VIE contractual arrangements and dividends and other distributions on equity from our WFOE to the Delaware holding company. Our ability to settle amounts owed under the VIE contractual arrangements is subject to certain restrictions and limitations. Under the VIE contractual arrangements, the VIEs are obligated to make payments to our WFOE, in cash or in kind, at the WFOE’s request. However, such payments are subject to Chinese taxes, including a 6% VAT and 25% enterprise income tax. In addition, current Chinese regulations permit our WFOE to pay dividends to its shareholders only out of registered capital amount, if any, as determined in accordance with Chinese accounting standards and regulations. If our WFOE incurs debt in the future, the instruments governing the debt may restrict its ability to pay dividends or make other payments to us. Any limitation on the ability of our WFOE to distribute dividends or other payments to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends or otherwise fund and conduct our business. In addition, any cash dividends or distributions of assets by our WFOE to its stockholder are subject to a Chinese withholding tax of as much as 10%. The Chinese government also imposes controls on the conversion of Renminbi (“RMB”) into foreign currencies and the remittance of currencies out of China. Therefore, we may

experience difficulties in completing the administrative procedures necessary to obtain and remit foreign currency for the payment of dividends from our profits, if any. If we are unable to receive all of the revenues from our operations through the current VIE contractual arrangements, we may be unable to pay dividends on our common stock. See “Prospectus Summary—Transfer of Cash or Assets.”

As used in this prospectus, references to “Remark Holdings,” “the Company,” “we,” “us” or “our” refer to Remark Holdings, Inc., the Delaware holding company, and its subsidiaries, excluding the VIEs.

PROSPECTUS SUMMARY

This summary highlights selected information contained elsewhere or incorporated by reference in this prospectus. This summary may not contain all the information that you should consider before determining whether to invest in our securities. You should read the entire prospectus carefully, including the information included in the “Risk Factors” section, as well as our consolidated financial statements, notes to the consolidated financial statements and the other information incorporated by reference into this prospectus, before making an investment decision.

Business Overview

Remark Holdings, Inc. and subsidiaries (“Remark”, “we”, “us”, or “our”), and its consolidated variable-interest entities, are primarily technology-focused. Our KanKan data intelligence platform serves as the basis for our development and deployment of artificial-intelligence-based solutions for businesses in many industries and geographies. We also own and operate an e-commerce digital media property focused on a luxury beach lifestyle.

We were originally incorporated in Delaware in March 2006 as HSW International, Inc., we changed our name to Remark Media, Inc. in December 2011, and as our business continued to evolve, we changed our name to Remark Holdings, Inc. in April 2017.

Our common stock, par value \$0.001 per share, is listed on the Nasdaq Capital Market under the ticker symbol MARK. Our website is www.remarkholdings.com. The information contained on, or that can be accessed through, our website is not a part of this prospectus.

Corporate Structure

We are a holding company incorporated in Delaware and not a Chinese operating company. As a holding company, we conduct a significant part of our operations through our subsidiaries and through contractual arrangements with the VIEs based in China. To address challenges resulting from laws, policies and practices that may disfavor foreign-owned entities that operate within industries deemed sensitive by the Chinese government, we use the VIE structure to replicate foreign investment in Chinese-based companies. We own 100% of the equity of a WFOE, which has entered into contractual arrangements with the VIEs, which are owned by members of our management team in China and/or by third parties. As a result of our use of the VIE structure, you may never directly hold equity interests in any of the VIEs. The securities offered pursuant to this prospectus are securities of Remark Holdings, Inc., the Delaware holding company, not of the VIEs.

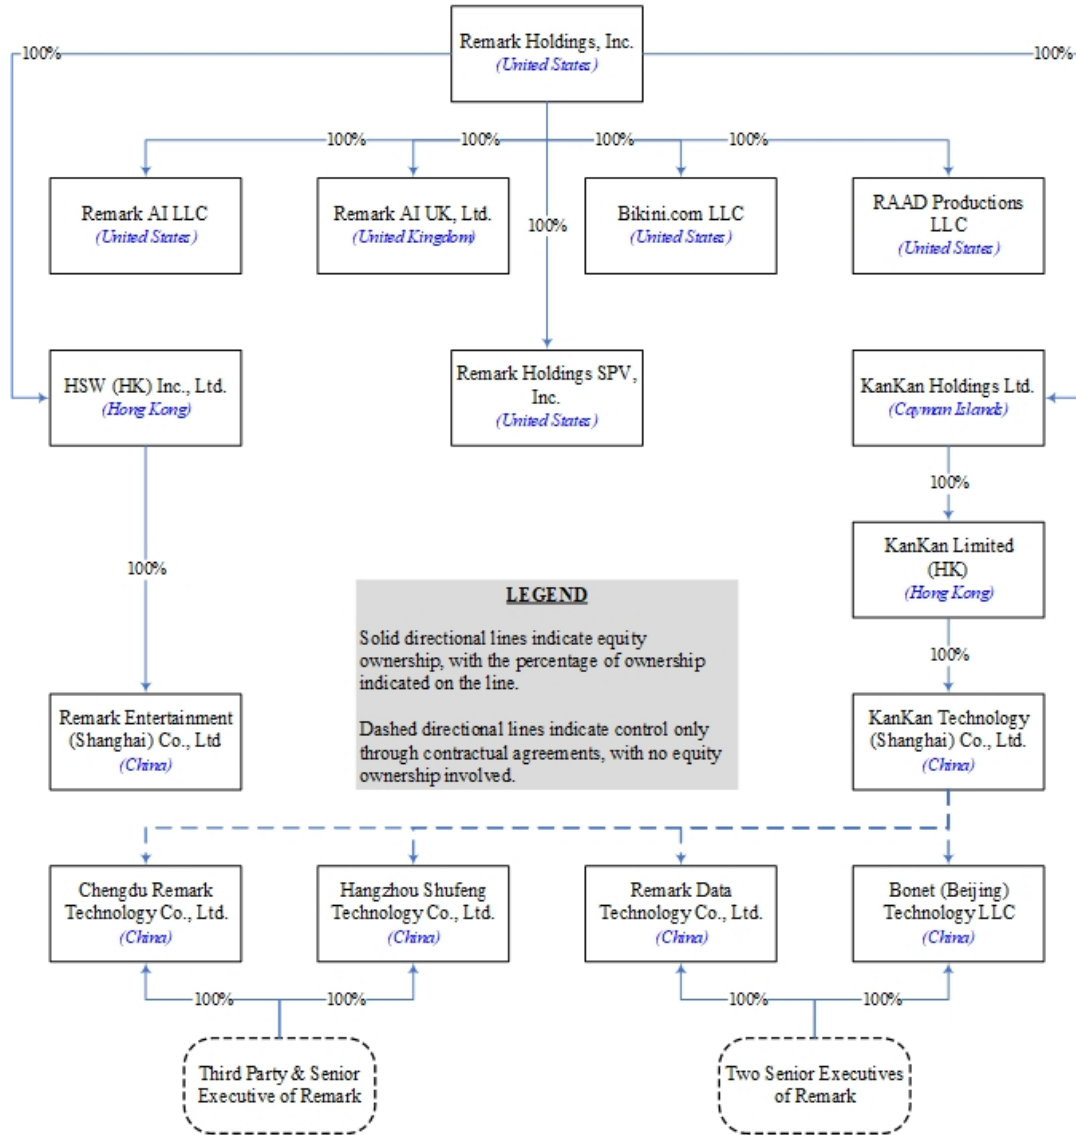

We fund the registered capital and operating expenses of the VIEs by extending loans to the shareholders of the VIEs. We believe that we are the primary beneficiary of the VIEs because the contractual arrangements governing the relationship between the VIEs and our WFOE, which include an exclusive call option agreement, exclusive business cooperation agreement, a proxy agreement and an equity pledge agreement, enable us to (i) exercise effective control over the VIEs, (ii) receive substantially all of the economic benefits of the VIEs, and (iii) have an exclusive call option to purchase, at any time, all or part of the equity interests in and/or assets of the VIEs to the extent permitted by Chinese laws.

The following diagram illustrates our corporate structure, including our significant subsidiaries, and the relationship between our WFOE and the VIEs as of the date of this prospectus. The diagram omits certain entities which are immaterial to our results of operations and financial condition. Equity interests depicted in this diagram are 100% owned. The relationships between each of Chengdu Remark Technology Co., Ltd., Hangzhou Shufeng Technology Co., Ltd., Remark Data Technology Co., Ltd. and Bonet (Beijing) Technology LLC, which constitute the VIEs, on the one hand, and KanKan Technology (Shanghai) Co., Ltd., our WFOE, on the other hand, as

illustrated in the following diagram are governed by contractual arrangements and do not constitute equity ownership.

REMARK HOLDINGS, INC. AND SUBSIDIARIES

Entity Organizational Chart

Because we do not directly hold equity interests in the VIEs, we are subject to risks and uncertainties of the interpretations and applications of Chinese laws and regulations, including but not limited to, the validity and enforcement of the contractual arrangements among the WFOE, the VIEs and the shareholders of the VIEs. We are also subject to the risks and uncertainties about any future actions of the Chinese government in this regard that could disallow the VIE structure, which would likely result in a material change in our operations and may cause the value of our common stock to depreciate significantly or become worthless.

The contractual arrangements may not be as effective as direct ownership in providing operational control. For instance, the VIEs and their shareholders could breach their contractual arrangements with us by, among other things, failing to conduct their operations in an acceptable manner or taking other actions that are detrimental to our interests. The shareholders of the VIEs may not act in the best interests of our Company or may not perform their obligations under these contracts. Such risks exist throughout the period in which we intend to operate certain portions of our business through the contractual arrangements with the VIEs. In the event that the VIEs or their shareholders fail to perform their respective obligations under the contractual arrangements, we may have to incur substantial costs and expend additional resources to enforce such arrangements. In addition, even if legal actions are taken to enforce such arrangements, there is uncertainty as to whether Chinese courts would recognize or enforce judgments of U.S. courts against us or such persons predicated upon the civil liability provisions of the securities laws of the United States or any state. See “Risk Factors—Risks Relating to Our Corporate Structure—We rely on contractual arrangements with the VIEs and their shareholders for a significant portion of our business operations. These arrangements may not be as effective as direct ownership in providing operational control. Any failure by the VIEs or their shareholders to perform their obligations under such contractual arrangements would have a material and adverse effect on our business.”

We are subject to certain legal and operational risks associated with having a significant portion of our operations in China. Chinese laws and regulations governing our current business operations, including the enforcement of such laws and regulations, are sometimes vague and uncertain and can change quickly with little advance notice. The Chinese government may intervene or influence our operations and the operations of the VIEs at any time and may exert more control over offerings conducted overseas and/or foreign investment in China-based issuers, which could result in a material change in our operations and/or the value of our securities. In addition, any actions by the Chinese government to exert more oversight and control over offerings that are conducted overseas and/or foreign investment in China-based issuers could significantly limit or completely hinder our ability to offer or continue to offer our securities to investors and cause the value of such securities to significantly decline or become worthless. Recently, the Chinese government adopted a series of regulatory actions and issued statements to regulate business operations in China, including those related to the use of variable interest entities, data security and anti-monopoly concerns. As of the date of this prospectus, neither we nor the VIEs have been involved in any investigations on cybersecurity review initiated by any Chinese regulatory authority, nor has any of them received any inquiry, notice or sanction. As of the date of this prospectus, no relevant laws or regulations in China explicitly require us to seek approval from the CSRC for any securities listing. As of the date of this prospectus, neither we nor the VIEs have received any inquiry, notice, warning or sanctions regarding our planned overseas listing from the CSRC or any other Chinese governmental authorities relating to securities listings. However, since these statements and regulatory actions are newly published, official guidance and related implementation rules have not been issued. It is highly uncertain what potential impact such modified or new laws and regulations will have on our ability to conduct our business, accept investments or list or maintain a listing on a U.S. or foreign exchange.

As of the date of this prospectus, we and the VIEs are not required to seek permissions from the CSRC, the Cyberspace Administration of China (the “CAC”), or any other entity that is required to approve of the operations of the VIEs. Nevertheless, Chinese regulatory authorities may in the future promulgate laws, regulations or implement rules that require us, our subsidiaries or the VIEs to obtain permissions from such regulatory authorities to approve the operations of the VIEs or any securities listing.

Summary of Risk Factors

Investing in our securities involves a high degree of risk. You should review carefully all of the information contained in this prospectus before making an investment in our securities. The following list summarizes some, but

not all, of these risks. Please read the information in the section titled “Risk Factors” for a more thorough description of these and other risks.

Risks Relating to Our Corporate Structure

- We rely on contractual arrangements with the VIEs and their shareholders for a significant portion of our business operations. These arrangements may not be as effective as direct ownership in providing operational control. Any failure by the VIEs or their shareholders to perform their obligations under such contractual arrangements would have a material and adverse effect on our business.
- If the Chinese government determines that the contractual arrangements constituting part of the VIE structure do not comply with Chinese regulations, or if these regulations change or are interpreted differently in the future, our common stock may decline in value or become worthless if we are unable to assert our contractual control rights over the assets of the VIEs that constitute a significant portion of our operations.
- The shareholders of the VIEs may have actual or potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.
- The contractual arrangements with the VIEs may be subject to scrutiny by China’s tax authorities. Any adjustment of related party transaction pricing could lead to additional taxes, and therefore substantially reduce our consolidated net income and the value of your investment.

Risks Relating to Doing Business in China

- Changes in China’s economic, political or social conditions, as well as possible interventions and influences of any government policies and actions, could have a material adverse effect on our business and operations and the value of our common stock.
- Uncertainties with respect to the Chinese legal system could adversely affect us.
- We may be liable for improper use or appropriation of personal information provided by our customers and any failure to comply with Chinese laws and regulations over data security could result in materially adverse impact on our business, results of operations and the value of our common stock.
- Trading in our securities may be prohibited under the Holding Foreign Companies Accountable Act if the PCAOB determines that it cannot inspect or fully investigate our auditors, and as a result, Nasdaq may determine to delist our securities.

Risks Relating to Our Common Stock

- Our stock price has fluctuated considerably and is likely to remain volatile, and various factors could negatively affect the market price or market for our common stock.
- Holders of our warrants will have no rights as a common stockholder until they exercise their warrants and acquire our common stock.
- The concentration of our stock ownership may limit individual stockholder ability to influence corporate matters.

- A significant number of additional shares of our common stock may be issued under the terms of existing securities, which issuances would substantially dilute existing stockholders and may depress the market price of our common stock.
- Provisions in our corporate charter documents and under Delaware law could make an acquisition of Remark more difficult, which acquisition may be beneficial to stockholders.

Transfer of Cash or Assets

Dividend Distributions

As of the date of this prospectus, none of our subsidiaries or any of the consolidated VIEs have made any dividends or distributions to our Company.

We have never declared or paid dividends or distributions on our common equity. We currently intend to retain all available funds and any future consolidated earnings to fund our operations and continue the development and growth of our business; therefore, we do not anticipate paying any cash dividends.

Under Delaware law, a Delaware corporation's ability to pay cash dividends on its capital stock requires the corporation to have either net profits or positive net assets (total assets less total liabilities) over its capital. If we determine to pay dividends on any of our common stock in the future, as a holding company, we may rely on dividends and other distributions on equity from our WFOE for cash requirements, including the funds necessary to pay dividends and other cash contributions to our stockholders.

Our WFOE's ability to distribute dividends is based upon its distributable earnings. Current Chinese regulations permit our WFOE to pay dividends to their shareholders only out of its registered capital amount, if any, as determined in accordance with Chinese accounting standards and regulations. If our WFOE incurs debt in the future, the instruments governing the debt may restrict its ability to pay dividends or make other payments to us. Any limitation on the ability of our WFOE to distribute dividends or other payments to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends or otherwise fund and conduct our business. In addition, any cash dividends or distributions of assets by our WFOE to its stockholder are subject to a Chinese withholding tax of as much as 10%.

The Chinese government also imposes controls on the conversion of RMB into foreign currencies and the remittance of currencies out of China. Therefore, we may experience difficulties in completing the administrative procedures necessary to obtain and remit foreign currency for the payment of dividends from our profits, if any. If we are unable to receive all of the revenues from our operations through the current VIE contractual arrangements, we may be unable to pay dividends on our common stock.

For us to pay dividends to our stockholders, we will rely on payments made from the VIEs to our WFOE in accordance with the VIE contractual arrangements, and the distribution of payments from the WFOE to the Delaware holding company as dividends. Certain payments from the VIEs to the WFOE pursuant to the VIE contractual arrangements are subject to Chinese taxes, including a 6% VAT and 25% enterprise income tax.

Our Company's Ability to Settle Amounts Owed under the VIE Contractual Arrangements

Under the VIE contractual arrangements, the VIEs are obligated to make payments to our WFOE, in cash or in kind, at the WFOE's request. We will be able to settle amounts owed under the VIE contractual arrangements through dividends paid by our WFOE to our Company. Such ability may be restricted or limited as follows:

First, any payments from the VIEs to our WFOE are subject to Chinese taxes, including a 6% VAT and 25% enterprise income tax.

Second, current Chinese regulations permit our WFOE to pay dividends to their shareholders only out of its registered capital amount, if any, as determined in accordance with Chinese accounting standards and regulations. In addition, if our WFOE incurs debt in the future, the instruments governing the debt may restrict its ability to pay dividends or make other payments to the Delaware holding company.

Third, the Chinese government also imposes controls on the conversion of RMB into foreign currencies and the remittance of currencies out of China. Therefore, we may experience difficulties in completing the administrative procedures necessary to obtain and remit foreign currency for the payment of dividends from profits, if any.

RISK FACTORS

Investing in our securities involves a high degree of risk. You should carefully consider the following risk factors, as well as those set forth in our most recent Annual Report on Form 10-K filed with the SEC, which are incorporated by reference into this prospectus, as well as the other information set forth in this prospectus and the documents incorporated by reference herein, before deciding whether to invest in our securities. Additional risks and uncertainties that we are unaware of may become important factors that affect us. If any of these risks actually occur, our business, financial condition or operating results may suffer, the trading price of our common stock could decline, and you may lose all or part of your investment.

Risks Relating to Our Corporate Structure

We rely on contractual arrangements with the VIEs and their shareholders for a significant portion of our business operations. These arrangements may not be as effective as direct ownership in providing operational control. Any failure by the VIEs or their shareholders to perform their obligations under such contractual arrangements would have a material and adverse effect on our business.

We have relied on contractual arrangements with the VIEs to operate our business in China. The revenues contributed by the VIEs constituted a majority of our total revenues for the fiscal years ended December 31, 2019 and 2020.

These contractual arrangements may not be as effective as direct ownership in providing us with control over the VIEs. For instance, the VIEs and their shareholders could breach their contractual arrangements with us by, among other things, failing to conduct their operations in an acceptable manner or taking other actions that are detrimental to our interests. If we had direct ownership of the VIEs, we would be able to exercise our rights as a shareholder to effect changes in the board of directors of the VIEs, which in turn could implement changes, subject to any applicable fiduciary obligations, at the management and operational level. However, under the current VIE contractual arrangements, we rely on the performance by the VIEs and their shareholders of their obligations under the contracts to exercise control over the VIEs. The shareholders of the VIEs may not act in the best interests of our Company or may not perform their obligations under these contracts. Such risks exist throughout the period in which we intend to operate certain portions of our business through the contractual arrangements with the VIEs.

In the event that the VIEs or their shareholders fail to perform their respective obligations under the contractual arrangements, we may have to incur substantial costs and expend additional resources to enforce such arrangements. For example, if the shareholders of a VIE refuse to transfer their equity interest in the VIE to us or our designee if we exercise the purchase option pursuant to these contractual arrangements, or if they otherwise act in bad faith toward us, then we may have to take legal actions to compel them to perform their contractual obligations. In addition, if any third parties claim any interest in such shareholders' equity interests in the VIEs, our ability to exercise shareholders' rights or foreclose the share pledge according to the contractual arrangements may be impaired. If these or other disputes between the shareholders of the VIEs and third parties were to impair our control over the VIEs, our ability to consolidate the financial results of the VIEs would be affected, which would in turn result in a material adverse effect on our business, operations and financial condition.

If the Chinese government determines that the contractual arrangements constituting part of the VIE structure do not comply with Chinese regulations, or if these regulations change or are interpreted differently in the future, our common stock may decline in value or become worthless if we are unable to assert our contractual control rights over the assets of the VIEs that constitute a significant portion of our operations.

Recently, the Chinese government adopted a series of regulatory actions and issued statements to regulate business operations in China, including those related to variable interest entities. These recent statements indicate an intent by the Chinese government to exert more oversight and control over offerings that are conducted overseas

and/or foreign investment in China-based issuers. As of the date of this prospectus, there are no relevant laws or regulations in China that prohibit our Company or any of our subsidiaries from listing or offering securities in the United States. However, since these statements and regulatory actions by the Chinese government are newly published, official guidance and related implementation rules have not been issued. Future action taken by the Chinese government could significantly limit or completely hinder our ability to offer or continue to offer securities to investors and cause the value of our common stock to significantly depreciate or become worthless. In addition, although we believe that our corporate structure and the VIE contractual arrangements comply with current applicable Chinese laws and regulations, in the event that the Chinese government determines that the contractual arrangements constituting part of the VIE structure do not comply with Chinese regulations, or if these regulations change or are interpreted differently in the future, we may be unable to assert our contractual control rights over the assets of the VIEs, and our common stock may decline in value or become worthless.

The shareholders of the VIEs may have actual or potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.

As of the date of this prospectus, we are not aware of any conflicts between the shareholders of the VIEs and us. However, the shareholders of the VIEs may have actual or potential conflicts of interest with us in the future. These shareholders may refuse to sign or breach, or cause the VIEs to breach, or refuse to renew, the existing contractual arrangements we have with them and the VIEs, which would have a material and adverse effect on our ability to effectively control the VIEs and receive economic benefits from the VIEs. For example, the shareholders may be able to cause our agreements with the VIEs to be performed in a manner adverse to us by, among other things, failing to remit payments due under the contractual arrangements to us on a timely basis. We cannot assure you that when conflicts of interest arise any or all of these shareholders will act in the best interests of our Company or such conflicts will be resolved in our favor. Currently, we do not have any arrangements to address potential conflicts of interest between these shareholders and our Company. If we cannot resolve any conflict of interest or dispute between us and these shareholders, we would have to rely on legal proceedings, which could result in disruption of our business and subject us to substantial uncertainty as to the outcome of any such legal proceedings.

The contractual arrangements with the VIEs may be subject to scrutiny by China's tax authorities. Any adjustment of related party transaction pricing could lead to additional taxes, and therefore substantially reduce our consolidated net income and the value of your investment.

The tax regime in China is rapidly evolving and there is significant uncertainty for Chinese taxpayers as Chinese tax laws may be interpreted in significantly different ways. China's tax authorities may assert that we or the VIEs or their shareholders are required to pay additional taxes on previous or future revenue or income. In particular, under applicable Chinese laws, rules and regulations, arrangements and transactions among related parties, such as the contractual arrangements with the VIEs, may be subject to audit or challenge by China's tax authorities. If China's tax authorities determine that any contractual arrangements were not entered into on an arm's length basis and therefore constitute a favorable transfer pricing, the China tax liabilities of the relevant subsidiaries, VIEs or the shareholders of the VIEs could be increased, which could increase our overall tax liabilities. In addition, China's tax authorities may impose interest on late payments. Our net income may be materially reduced if our tax liabilities increase. It is uncertain whether any new China laws, rules or regulations relating to VIE structures will be adopted or, if adopted, what they would provide.

If we or any of the VIEs are found to be in violation of any existing or future China laws, rules or regulations, or if we fail to obtain or maintain any of the required permits or approvals, the relevant China regulatory authorities would have broad discretion to take action in dealing with these violations or failures, including revoking the business and operating licenses of the VIEs, requiring us to discontinue or restrict our operations, restricting our right to collect revenue, blocking one or more of our websites, requiring us to restructure our operations or taking other regulatory or enforcement actions against us. The imposition of any of these measures could result in a material adverse effect on our ability to conduct all or any portion of our business operations. In addition, it is

unclear what impact Chinese government actions would have on us and on our ability to consolidate the financial results of any of the VIEs in our consolidated financial statements, if Chinese governmental authorities were to find our legal structure and contractual arrangements to be in violation of Chinese laws, rules and regulations. If the imposition of any governmental actions causes us to lose our right to direct the activities of any of the VIEs or otherwise separate from any of these entities, and if we are not able to restructure our ownership structure and operations in a satisfactory manner, we would no longer be able to consolidate the financial results of the VIEs in our consolidated financial statements. Any of these events would have a material adverse effect on our business, financial condition and results of operations.

Risks Relating to Doing Business in China

Changes in China's economic, political or social conditions, as well as possible interventions and influences of any government policies and actions, could have a material adverse effect on our business and operations and the value of our common stock.

A significant portion of our operations are conducted through our WFOE and the China-based VIEs. Accordingly, our business, financial condition, results of operations and prospects may be influenced to a significant degree by political, economic, social conditions and government policies in China generally. The Chinese economy differs from the economies of most developed countries in many respects, including the level of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. Although the Chinese government has implemented measures emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets, and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the government. In addition, the Chinese government continues to play a significant role in regulating industry development by imposing industrial policies. The Chinese government also exercises significant control over China's economic growth through allocating resources, controlling payment of foreign currency-denominated obligations, setting monetary policy, and providing preferential treatment to particular industries or companies.

While the Chinese economy has experienced significant growth over the past decades, growth has been uneven, both geographically and among various sectors of the economy. Any adverse changes in economic conditions in China, in the policies of the Chinese government or in the laws and regulations in China could have a material adverse effect on the overall economic growth of China. Such developments could adversely affect our business and operating results, lead to reduction in demand for our services and adversely affect our competitive position. COVID-19 had a severe and negative impact on Chinese and global economy in 2020. Whether this will lead to a prolonged downturn in the economy is still unknown. The Chinese government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures may benefit the overall Chinese economy, but may have a negative effect on us. In addition, in the past the Chinese government has implemented certain measures, including interest rate adjustment, to control the pace of economic growth. These measures may cause decreased economic activity in China, which may adversely affect our business and operating results.

Furthermore, our Company, our subsidiaries, the VIEs and our investors may face uncertainty about future actions by the government of China that could significantly affect the VIEs' financial performance and operations, including the enforceability of the VIE contractual arrangements. Chinese laws and regulations, including the enforcement of such laws and regulations, can change quickly with little advance notice. The Chinese government may intervene or influence our operations and the operations of the VIEs at any time and may exert more control over offerings conducted overseas and/or foreign investment in China-based issuers, which could result in a material change in our operations and/or the value of our securities. As of the date of this prospectus, neither our Company nor any of the VIEs has received or was denied permission from Chinese authorities to list on U.S. exchanges or conduct U.S. securities offerings. However, there is no guarantee that our Company or the VIEs will receive or not be denied permission from Chinese authorities to list on U.S. exchanges or conduct U.S. securities offerings in the future. China's economic, political and social conditions, as well as interventions and influences of any government policies, laws and regulations are uncertain and could have a material adverse effect on our business.

Uncertainties with respect to the Chinese legal system could adversely affect us.

The Chinese legal system is a civil law system based on written statutes. Unlike the common law system, prior court decisions under the civil law system may be cited for reference but have limited precedential value. Since these laws and regulations are relatively new and the Chinese legal system continues to rapidly evolve, the interpretations of many laws, regulations and rules are not always uniform and the enforcement of these laws, regulations and rules involves uncertainties.

In 1979, the Chinese government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. The overall effect of legislation over the past three decades has significantly enhanced the protections afforded to various forms of foreign investments in China. However, China has not developed a fully integrated legal system, and recently enacted laws and regulations may not sufficiently cover all aspects of economic activities in China. In particular, the interpretation and enforcement of these laws and regulations involve uncertainties. Since Chinese administrative and court authorities have significant discretion in interpreting and implementing statutory provisions and contractual terms, it may be difficult to evaluate the outcome of administrative and court proceedings and the level of legal protection we enjoy. These uncertainties may affect our judgment on the relevance of legal requirements and our ability to enforce our contractual rights or tort claims. In addition, the regulatory uncertainties may be exploited through unmerited or frivolous legal actions or threats in attempts to extract payments or benefits from us.

Furthermore, the Chinese legal system is based in part on government policies and internal rules, some of which are not published on a timely basis or at all and may have retroactive effect. As a result, we may not be aware of our violation of any of these policies and rules until sometime after the violation. In addition, any administrative and court proceedings in China may be protracted, resulting in substantial costs and diversion of resources and management attention.

In addition, we are subject to risks and uncertainties of the interpretations and applications of Chinese laws and regulations, including but not limited to, the validity and enforcement of the VIE contractual arrangements. We are also subject to the risks and uncertainties about any future actions of the Chinese government in this regard that could disallow the VIE structure, which would likely result in a material change in our operations, and the value of our common stock may depreciate significantly or become worthless.

We may be liable for improper use or appropriation of personal information provided by our customers and any failure to comply with Chinese laws and regulations over data security could result in materially adverse impact on our business, results of operations and the value of our common stock.

Our business involves collecting and retaining certain internal and external data and information including that of our customers and suppliers. The integrity and protection of such information and data are crucial to us and our business. Owners of such data and information expect that we will adequately protect their personal information. We are required by applicable laws to keep strictly confidential the personal information that we collect, and to take adequate security measures to safeguard such information.

The PRC Criminal Law, as amended by its Amendment 7 (effective on February 28, 2009) and Amendment 9 (effective on November 1, 2015), prohibits institutions, companies and their employees from selling or otherwise illegally disclosing a citizen's personal information obtained in performing duties or providing services or obtaining such information through theft or other illegal ways. On November 7, 2016, the Standing Committee of the PRC National People's Congress issued the Cyber Security Law of the PRC (the "Cyber Security Law"), which became effective on June 1, 2017. Pursuant to the Cyber Security Law, network operators must not, without users' consent, collect their personal information, and may only collect users' personal information necessary to provide

their services. Providers are also obliged to provide security maintenance for their products and services and shall comply with provisions regarding the protection of personal information as stipulated under the relevant laws and regulations.

The Civil Code of the PRC (issued by the PRC National People's Congress on May 28, 2020 and effective from January 1, 2021) provides legal basis for privacy and personal information infringement claims under the Chinese civil laws. Chinese regulators, including the CAC, the Ministry of Industry and Information Technology, and the Ministry of Public Security, have been increasingly focused on regulation in data security and data protection.

On August 20, 2021, the Standing Committee of the 13th National People's Congress of China issued the final version of the Personal Information Protection Law (the "PIPL"), which becomes effective on November 1, 2021. The PIPL imposes on China-based data processors (such as the VIEs) significant obligations with respect to, among other things, obtaining, processing and cross-border transferring personal information. The PIPL may subject a data processor to a penalty of as much as RMB50 million or 5% of the preceding year's turnover.

The Chinese regulatory requirements regarding cybersecurity are evolving. For instance, various regulatory bodies in China, including the CAC, the Ministry of Public Security and the State Administration for Market Regulation, have enforced data privacy and protection laws and regulations with varying and evolving standards and interpretations. In April 2020, the Chinese government promulgated Cybersecurity Review Measures, which came into effect on June 1, 2020. According to the Cybersecurity Review Measures, operators of critical information infrastructure must pass a cybersecurity review when purchasing network products and services which do or may affect national security.

In July 2021, the CAC and other related authorities released the draft amendment to the Cybersecurity Review Measures for public comments through July 25, 2021. The draft amendment proposes the following key changes:

- companies who are engaged in data processing are also subject to the regulatory scope;
- the CSRC is included as one of the regulatory authorities for purposes of jointly establishing the state cybersecurity review working mechanism;
- the operators (including both operators of critical information infrastructure and relevant parties who are engaged in data processing) holding more than one million users/users' (which are to be further specified) individual information and seeking a listing outside China shall file for cybersecurity review with the Cybersecurity Review Office; and
- the risks of core data, material data or large amounts of personal information being stolen, leaked, destroyed, damaged, illegally used or transmitted to overseas parties and the risks of critical information infrastructure, core data, material data or large amounts of personal information being influenced, controlled or used maliciously shall be collectively taken into consideration during the cybersecurity review process.

Currently, the draft amendment has been released for public comment only, and its implementation provisions and anticipated adoption or effective date remains substantially uncertain and may be subject to change. If the draft amendment is adopted into law in the future, we may become subject to enhanced cybersecurity review. Certain internet platforms in China have been reportedly subject to heightened regulatory scrutiny in relation to cybersecurity matters. As of the date of this prospectus, neither we nor any of the VIEs have been subject to heightened regulatory scrutiny with respect to cybersecurity matters, nor have we or any of the VIEs been informed by any Chinese governmental authority of any requirement that we file for a cybersecurity review. However, if we

are deemed to be a critical information infrastructure operator or a company that is engaged in data processing and holds personal information of more than one million users, we could be subject to Chinese cybersecurity review.

As there remains significant uncertainty in the interpretation and enforcement of relevant Chinese cybersecurity laws and regulations, we could be subject to cybersecurity review, and if so, we may not be able to pass such review. In addition, we could become subject to enhanced cybersecurity review or investigations launched by Chinese regulators in the future. Any failure or delay in the completion of the cybersecurity review procedures or any other non-compliance with the related laws and regulations may result in fines or other penalties, including suspension of business, website closure, removal of our app from the relevant app stores, and revocation of prerequisite licenses, as well as reputational damage or legal proceedings or actions against us, which may have material adverse effect on our business, financial condition or results of operations. As of the date of this prospectus, neither we nor any of the VIEs have been involved in any investigations on cybersecurity review initiated by the CAC or any other Chinese regulatory authority, nor have we or any of the VIEs received any inquiry, notice or sanction in such respect. We believe that we are in compliance with the aforementioned regulations and policies that have been issued by the CAC.

On June 10, 2021, the Standing Committee of the National People’s Congress of China (the “SCNPC”) promulgated the PRC Data Security Law, which will take effect in September 2021. The PRC Data Security Law imposes data security and privacy obligations on entities and individuals carrying out data activities, and introduces a data classification and hierarchical protection system based on the importance of data in economic and social development, and the degree of harm it will cause to national security, public interests, or legitimate rights and interests of individuals or organizations when such data is tampered with, destroyed, leaked, illegally acquired or used. The PRC Data Security Law also provides for a national security review procedure for data activities that may affect national security and imposes export restrictions on certain data an information.

As of the date of this prospectus, we do not expect that the current Chinese laws on cybersecurity or data security, or that the PIPL, when effective, would have a material adverse impact on our business operations. However, as uncertainties remain regarding the interpretation and implementation of these laws and regulations, we cannot assure you that we will comply with such regulations in all respects and we may be ordered to rectify or terminate any actions that are deemed illegal by regulatory authorities. We may also become subject to fines and/or other sanctions which may have material adverse effect on our business, operations and financial condition.

Trading in our securities may be prohibited under the Holding Foreign Companies Accountable Act if the PCAOB determines that it cannot inspect or fully investigate our auditors, and as a result, Nasdaq may determine to delist our securities.

The Holding Foreign Companies Accountable Act (the “HFCA Act”) was enacted on December 18, 2020. The HFCA Act states if the SEC determines that a company has filed audit reports issued by a registered public accounting firm that has not been subject to inspection by the PCAOB for three consecutive years beginning in 2021, the SEC shall prohibit such shares from being traded on a national securities exchange or in the over the counter trading market in the United States.

On March 24, 2021, the SEC adopted interim final rules relating to the implementation of certain disclosure and documentation requirements of the HFCA Act. A company will be required to comply with these rules if the SEC identifies it as having a “non-inspection” year under a process to be subsequently established by the SEC. The SEC is assessing how to implement other requirements of the HFCA Act, including the listing and trading prohibition requirements described above.

On June 22, 2021, the U.S. Senate passed a bill which, if passed by the U.S. House of Representatives and signed into law, would reduce the number of consecutive non-inspection years required for triggering the prohibitions under the HFCA Act from three years to two.

Our current independent registered public accounting firm, as an auditor of companies that are traded publicly in the United States and a firm registered with the PCAOB, is subject to laws in the United States pursuant to which the PCAOB conducts regular inspections to assess their compliance with the applicable professional standards. We are not aware of any reasons to believe or conclude that the PCAOB has been or is currently unable to inspect our current auditors, or that our current auditors would not permit an inspection by the PCAOB. However, given the recent developments, we cannot assure you whether Nasdaq or regulatory authorities would apply additional and more stringent criteria to us after considering the effectiveness of our auditor's audit procedures and quality control procedures, adequacy of personnel and training, or sufficiency of resources, geographic reach or experience as it relates to the audit of our financial statements.

The SEC may propose additional rules or guidance that could impact us if our auditor is not subject to PCAOB inspection. For example, on August 6, 2020, the President's Working Group on Financial Markets (the "PWG") issued the Report on Protecting United States Investors from Significant Risks from Chinese Companies to the then President of the United States. This report recommended the SEC implement five recommendations to address companies from jurisdictions that do not provide the PCAOB with sufficient access to fulfil its statutory mandate. Some of the concepts of these recommendations were implemented with the enactment of the HFCA Act. However, some of the recommendations were more stringent than the HFCA Act. For example, if a company's auditor was not subject to PCAOB inspection, the report recommended that the transition period before a company would be delisted would end on January 1, 2022.

The SEC has announced that the SEC staff is preparing a consolidated proposal for the rules regarding the implementation of the HFCA Act and to address the recommendations in the PWG report. It is unclear when the SEC will complete its rulemaking and when such rules will become effective and what, if any, of the PWG recommendations will be adopted. The implications of this possible regulation in addition to the requirements of the HFCA Act are uncertain. Such uncertainty could cause the market price of our shares to be materially and adversely affected, and our securities could be delisted or prohibited from being traded on a national securities exchange earlier than would be required by the HFCA Act. If our shares are unable to be listed on another securities exchange by then, such a delisting would substantially impair your ability to sell or purchase our shares when you wish to do so, and the risk and uncertainty associated with a potential delisting would have a negative impact on the price of our common stock.

Risks Relating to Our Common Stock

Our stock price has fluctuated considerably and is likely to remain volatile, and various factors could negatively affect the market price or market for our common stock.

The trading price of our common stock has been and may continue to be volatile. From January 1, 2019 through June 30, 2021, the high and low sales prices for our common stock were \$4.72 and \$0.25, respectively. The trading price of our common stock may fluctuate significantly in response to numerous factors, many of which are beyond our control, including:

- general market and economic conditions;
- the low trading volume and limited public market for our common stock;
- minimal third-party research regarding our company; and
- the current and anticipated future operating performance and equity valuation of Sharecare, Inc., in which we have a significant equity investment.

In addition, the stock market in general, and the market prices for Internet-related companies in particular, have experienced volatility that often has been unrelated to the operating performance of such companies. Such

broad market and industry fluctuations may adversely affect the price of our stock, regardless of our operating performance.

Holders of our warrants will have no rights as a common stockholder until they exercise their warrants and acquire our common stock.

Until a holder of our warrants acquires shares of our common stock upon exercise of such warrants, such holder will have no rights with respect to shares of our common stock issuable upon exercise of the warrants. Upon exercise of warrants by, the holder shall become entitled to exercise the rights of a common stockholder only as to matters for which the record date occurs after the exercise date.

The concentration of our stock ownership may limit individual stockholder ability to influence corporate matters.

As of October 28, 2021, our Chairman and Chief Executive Officer, Kai-Shing Tao, may be deemed to beneficially own 10,200,634 shares, or 9.3% of our common stock, and Lawrence Rosen may be deemed to beneficially own 5,418,616 shares, or 5.2% of our common stock. The interests of these stockholders may not always coincide with the interests of other stockholders, and they may act in a manner that advances their best interests and not necessarily those of other stockholders, and might affect the prevailing market price for our securities.

If these stockholders act together, they may be able to exert significant control over our management and affairs requiring stockholder approval, including approval of significant corporate actions. Such concentration of ownership may have the effect of delaying or preventing a change in control and might adversely affect the market price of our common stock.

A significant number of additional shares of our common stock may be issued under the terms of existing securities, which issuances would substantially dilute existing stockholders and may depress the market price of our common stock.

As of October 28, 2021, we had outstanding stock options allowing for the purchase of as many as approximately 14.9 million shares of common stock. Also outstanding were (i) the Investor Warrant, which is exercisable for up to 4,237,290 shares of common stock, (ii) the Financial Advisor Warrants, which are exercisable for up to an aggregate of 127,118 shares of common stock, (iii) warrants we issued as part of the consideration for our acquisition of assets of China Branding Group Limited (“CBG”), providing for the right to purchase 40,000 shares of common stock at a per-share exercise prices of \$10.00 (the “CBG Acquisition Warrants”), and (iv) warrants we issued pursuant to a settlement agreement that we entered into with CBG and its joint official liquidators, providing for the right to purchase 5,710,000 shares of common stock at a per share exercise price of \$6.00 (the “CBG Settlement Warrants”).

The Investor Warrant is immediately exercisable and will expire on the five-year anniversary of the registration statement of which this prospectus forms a part. However, we are prohibited from effecting an exercise of the Investor Warrant, and the holder thereof will not have the right to exercise any portion of its Investor Warrant, to the extent that, as a result of such exercise, the warrant holder would beneficially own more than 4.99% of the outstanding shares of our common stock immediately after giving effect to the issuance of shares of issuable upon exercise of the Investor Warrant. The Financial Advisor Warrants are immediately exercisable and will expire on the five-year anniversary of the date of issuance.

The CBG Acquisition Warrants and the CBG Settlement Warrants are exercisable on a cashless basis only, such that they cannot be exercised for the entire amount of shares purchasable under such warrants, and they effectively cannot be exercised to purchase shares of common stock unless the applicable market value of the common stock exceeds the applicable exercise price under the terms thereof.

The issuance of common stock pursuant to the warrants described above would substantially dilute the proportionate ownership and voting power of existing stockholders, and their issuance, or the possibility of their issuance, may depress the market price of our common stock.

Provisions in our corporate charter documents and under Delaware law could make an acquisition of Remark more difficult, which acquisition may be beneficial to stockholders.

Provisions in our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws, as well as provisions of the General Corporation Law of the State of Delaware (the "DGCL"), which may discourage, delay or prevent a merger with, acquisition of or other change in control of Remark, even if such a change in control would be beneficial to our stockholders, include the following:

- only our Board of Directors (our "Board") may call special meetings of our stockholders;
- our stockholders may take action only at a meeting of our stockholders and not by written consent;
- we have authorized, undesignated preferred stock, the terms of which may be established and shares of which may be issued without stockholder approval.

Additionally, Section 203 of the DGCL prohibits a person who owns in excess of 15% of our outstanding voting stock from merging or combining with us for a period of three years after the date of the transaction in which the person acquired in excess of 15% of our outstanding voting stock, unless the merger or combination is approved in a prescribed manner. We have not opted out of the restriction under Section 203, as permitted under the DGCL.

You will find forward-looking statements principally in the sections entitled "Prospectus Summary" and "Risk Factors". These forward-looking statements are identifiable by words or phrases indicating that we or our management "expects," "anticipates," "plans," "believes," or "estimates," or that a particular occurrence or event "will," "may," "could," "should," or "will likely" result, occur or be pursued or "continue" in the future, that the "outlook" or "trend" is toward a particular result or occurrence, that a development is an "opportunity," "priority," "strategy," "focus," that we are "positioned" for a particular result, or similarly stated expectations. In addition to other risks and uncertainties described in connection with the forward-looking statements contained in this prospectus and other periodic reports filed with the SEC, there are many important factors that could cause actual results to differ materially. Such risks and uncertainties include general business conditions, changes in overall economic conditions, our ability to integrate acquired assets, the impact of competition and other factors which are often beyond our control.

This should not be construed as a complete list of all of the economic, competitive, governmental, technological and other factors that could adversely affect our expected consolidated financial position, results of operations or liquidity. Additional risks and uncertainties not currently known to us or that we currently believe are immaterial also may impair our business, operations, liquidity, financial condition and prospects. We undertake no obligation to update or revise our forward-looking statements to reflect developments that occur or information that we obtain after the date of this prospectus.

PLAN OF DISTRIBUTION

The selling security holders and any of their respective transferees, pledgees, donees, assignees or other successors-in-interest may, from time to time, sell any or all of their respective shares of our common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. See "Selling Security Holders" on page 24 of this prospectus. Such sales may be made on one or more exchanges or in the over-the-counter market or otherwise, at prices and under terms then prevailing or at prices related to the then current market price, at fixed prices subject to change or at negotiated prices. The selling security holders may use any one or more of the following methods when selling securities:

- an exchange or market distribution in accordance with the rules of the Nasdaq;
- privately negotiated transactions;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- transactions in which a broker-dealer solicits purchasers on a best-efforts basis;
- through one or more underwriters on a firm commitment or best-efforts basis;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- directly to one or more purchasers;
- through agents; or
- a combination of any such methods of sale.

The selling security holders also may sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

The selling security holders also may transfer our securities in other circumstances, in which case the transferees or other successors-in-interest will be the selling beneficial owners for purposes of this prospectus.

In effecting sales, broker-dealers or agents engaged by the selling security holders may arrange for other broker-dealers to participate. Broker-dealers or agents may receive commissions, discounts or concessions from the selling security holders in amounts to be negotiated immediately prior to the sale. In connection with sales of the shares of our common stock offered hereby or otherwise, the selling security holders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of our common stock offered hereby in the course of hedging in positions they assume. The selling security holders may also sell shares of our common stock offered hereby short and deliver shares of our common stock covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling security holders may also loan or pledge securities offered hereby to broker-dealers that in turn may sell such securities.

In offering the securities covered by this prospectus, the selling security holders and any broker-dealers who execute sales for the selling security holders may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such case, any profits realized by the selling security holders and the compensation of any broker-dealer may be deemed to be underwriting discounts and commissions. In no event shall any broker-dealer receive fees, commissions and markups which, in the aggregate, exceed the amount permitted by applicable regulations.

In order to comply with the securities laws of certain states, if applicable, the shares must be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states, the shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and satisfied. The selling security holders have informed us that none of them has any agreement or understanding, directly or indirectly, with any person to distribute the securities offered hereby. If any selling security holder notifies us that an arrangement has been entered into with a broker-dealer for the sale of shares through a block trade, special offering or secondary distribution or a purchase by a broker or dealer, we may be required to file a prospectus supplement pursuant to the applicable rules promulgated under the Securities Act.

There can be no assurance that any selling security holder will sell any or all of the securities registered pursuant to the registration statement, of which this prospectus is a part.

We have advised the selling security holders that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of shares of our common stock in the market and to the activities of the selling security holders and their affiliates. In addition, we will make copies of this prospectus available to the selling security holders for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling security holders may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under the Securities Act. We have agreed to indemnify the selling security holders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to use our best efforts to keep the registration statement of which this prospectus is a part continuously effective, supplemented and amended as required by the Securities Act, in order to permit this prospectus to be usable by the selling security holders for a period from the date the registration statement becomes effective to, and including, the date upon which no registrable securities are outstanding and constitute “restricted securities” (as defined in Rule 144 under the Securities Act). We will bear all expenses incurred in connection with the performance of our obligations under the Registration Rights Agreement and will reimburse the selling security

holders for the reasonable fees and disbursements of one firm or counsel to act as counsel for the selling security holders in connection with this offering.

Item 15. Indemnification of Directors and Officers.

Our Charter provides that, to the fullest extent permitted by the General Corporation Law of the State of Delaware (the "DGCL"), our directors shall not be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director. Each of our Charter and Bylaws also provide as follows:

- (a) The Company shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Company) by reason of the fact that the person is or was a director, officer, employee or agent of the Company, or is or was serving at the request of the Company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in, or not opposed to, the best interests of the Company, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in or not opposed to the best interests of the Company, and, with respect to any criminal action or proceeding, had reasonable cause to believe that the person's conduct was unlawful.
- (b) The Company shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the Company to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the Company, or is or was serving at the request of the Company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the Company and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Company unless and only to the extent that the Court of Chancery of the State of Delaware or the court in which such action or suit was brought shall

determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

- (c) To the extent that a present or former director or officer of the Company has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in sections (a) and (b) above, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.
- (d) Any indemnification under sections (a) and (b) above (unless ordered by a court) shall be made by the Company only as authorized in the specific case upon a determination that indemnification of the present or former director, officer, employee or agent is proper in the circumstances because the person has met the applicable standard of conduct set forth in sections (a) and (b) above. Such determination shall be made, with respect to a person who is a director or officer at the time of such determination, (i) by a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (ii) by a committee of such directors designated by majority vote of such directors, even though less than a quorum, or (iii) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (iv) by the stockholders of the Company.

We have obtained liability insurance covering our directors and executive officers for claims asserted against them or incurred by them in such capacity.

Item 17. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) of the Securities Act if, in the aggregate, the changes in volume and price represent no more than twenty (20) percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement; provided, however, that the undertakings set forth in paragraphs (1)(i), (1)(ii) and (1)(iii) above do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the SEC by the Registrant pursuant to Section 13 or Section 15(d) of the Exchange Act that are incorporated by reference in this registration statement or is contained in a form of prospectus filed pursuant to Rule 424(b) of the Securities Act that is part of this registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(5) That, for the purpose of determining liability under the Securities Act to any purchaser:

(i) Each prospectus filed by the Registrant pursuant to Rule 424(b)(3) of the Securities Act shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B of the Securities Act, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such

securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

- (6) That, for the purpose of determining liability of the Registrant under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned Registrant undertakes that in a primary offering of securities of the undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser: (i) any preliminary prospectus or prospectus of the undersigned Registrant relating to the offering required to be filed pursuant to Rule 424 of the Securities Act; (ii) any free writing prospectus relating to the offering prepared by or on behalf of the undersigned Registrant or used or referred to by the undersigned Registrant; (iii) the portion of any other free writing prospectus relating to the offering containing material information about the undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant; and (iv) any other communication that is an offer in the offering made by the undersigned Registrant to the purchaser.
- (b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (h) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Las Vegas, State of Nevada, on the 29th day of October, 2021.

Re: Registration Statement on Form S-3

Ladies and Gentlemen:

We have acted as counsel to Remark Holdings, Inc., a Delaware corporation (the "Company"), in connection with the preparation of a Registration Statement on Form S-3 (the "Registration Statement") filed by the Company on or about the date hereof with the Securities and Exchange Commission under the Securities Act of 1933, as amended, relating to the offer and resale from time to time by the selling security holders identified in the prospectus constituting a part of the Registration Statement (the "Prospectus") of (i) up to 4,237,290 shares of the Company's common stock (the "Common Shares"), (ii) up to 4,237,290 shares of the Company's common stock (the "Investor Warrant Shares") issuable upon exercise of a warrant the Company issued to Armistice Capital Master Fund Ltd. in a private placement (the "Investor Warrant"), (iii) warrants to purchase up to an aggregate of 127,118 shares of the Company's common stock issued to A.G.P./Alliance Global Partners and its designees (the "Financial Advisor Warrants" and together with the Investor Warrant, the "Warrants"), and (iv) up to 127,118 shares of the Company's common stock issuable upon exercise of the Financial Advisor Warrants (the "FA Warrant Shares" and together with the Investor Warrant Shares, the "Warrant Shares").

We advise you that we have examined executed originals or copies certified or otherwise identified to our satisfaction of the following documents: (a) the Registration Statement, (b) the Prospectus, (c) the Warrants, (d) the Company's Amended and Restated Certificate of Incorporation, as amended to date, (e) the Company's Amended and Restated Bylaws, as amended to date, and (f) certain resolutions adopted by the Board of Directors of the Company. In addition, we have examined and relied upon such corporate records and other documents, instruments and certificates of officers and representatives of the Company and of public officials, and we have made such examination of law, as we have deemed necessary or appropriate for purposes of the opinion expressed below.

Based upon the foregoing and subject to the qualifications, assumptions and limitations contained herein, we are of the opinion that (a) the Common Shares are validly issued, fully paid and non-assessable, (b) the Warrant Shares, when issued in accordance with the terms of the Warrants, will be

validly issued, fully paid and non-assessable, and (c) the Financial Advisor Warrants are legal, valid and binding obligations of the Company, enforceable against the Company in accordance with their terms, except (i) as such enforceability may be limited by bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally and by general equitable principles (regardless of whether enforceability is considered in a proceeding in equity or at law), (ii) as enforceability of any indemnification or contribution provision may be limited under the Federal and state securities laws, and (iii) that the remedy of specific performance and injunctive and other forms of equitable relief may be subject to the equitable defenses and to the discretion of the court before which any proceeding therefor may be brought.
